Bima Adnandita

Penganten Ali Street, Ciracas, East Jakarta, Indonesia

## About Me

---

I am Bima Adnandita, a university student with a strong passion for technology, UI/UX design, and web development. With an academic background in Informatics, I have gained a solid understanding of user interface design and website development.

## Education

---

### 2020 - 2023 | SMA 39 Jakarta | Natural Science

I studied math, physics, chemistry, and biology in high school, which built a strong foundation for my interest in technology and informatics.

### 2023 - Present | UPN Veteran Jakarta | Informatics

I gained skills in programming, system analysis, and IT infrastructure, which prepared me to support digital transformation across industries.

## Organization Experience

---

### KSM Android | Member

2023 - Present

- 2024 | Product Designer | Project Internal Development 2024

Responsible for designing the user interface of the “Android Portal” website, specifically for the admin panel.

- 2025 | Logistics Division | Tech For Society 2025

Responsible for managing and distributing equipment to ensure smooth operations during the event.

- 2025 - Present | FrontEnd Developer | Project Internal Development 2025

Responsible for developing the “Sprout” design system website used across KSM Android internal applications.

- 2025 | Logistic Division | OPERA 2025

Responsible for managing logistics and coordinating the distribution of equipment to support the smooth execution of the recruitment event.

## Skills

---

UI/UX Design | FrontEnd Development | Responsibility | Teamwork | Time Management | Multitasking | Communication | Adaptability | Critical and Analytical Thinking | Strong Communication | Problem Solving | Eagerness to Learn | Attention to Detail | Curiosity for Continuous Growth
